GENERAL REQUIREMENTS

Project No.: 6364047

(Clauses incorporated in Base Contract apply to this solicitation)

Title: Airfield Paving Repairs

NAICS Code and Standard Size: 237310, Highway, Street, and Bridge Construction, \$36.5 Million

Contract Completion Date: All work shall be completed within **420** calendar days after award

Estimated Cost Range: Between \$5,000,000 and \$10,000,000

Wage Determination: General Decision NC160104 MOD 01 Highway dated 01/22/2016

Liquidated Damages: \$3,250.00 per calendar day of delay

Basis for Award: Lowest Price, with Additive Items (DFARS 252.236-7007, see page 9)

Proposal Acceptance Period: 120 days from receipt of offers

Site Visit: 10 JULY 2017 @ 0730

**Contractors are to meet at the FEAD office, Building 163, MCAS Cherry Point
This will be the ONLY Government Scheduled Site Visit for this Project.**

Bond Requirements: Bid bonds are required in accordance with FAR 28-101-4 (for projects over \$150,000). An electronic copy of your bid bond must be submitted with your proposal. A hard copy of your bid bond will be requested from the apparent low upon confirmation of their price and must be submitted to the FEAD office within one (1) business day from time of request. Failure to submit an electronic copy of your bid bond with your proposal will result in your proposal being deemed nonresponsive and your proposal removed from consideration.

In accordance with NFAS 5252.228-9305, Payment and/or performance bond(s) will be requested at the time of award.

- No bonds are required for proposals less than \$35K.
- Proposals valued at \$35K and greater will require a payment bond only.
- Proposals valued at \$150K and greater will require a bid bond, a payment bond, and a performance bond.

Proposal Due Date/Time: 20 JULY14 FEBRUARY 2017, 1200 local time

E-Mail Address for Proposals and Requests for information (RFIs):

1. roicc_chpt_ktr_bids@navy.mil
2. Jennifer.L.Stewart1@navy.mil

*note: Proposals must be sent to **BOTH** of the above email addresses.

Requests for Information (RFIs): RFIs must be submitted email addresses above. The cut off for RFIs is 13 JULY 2017 by 0900 in order to process all inquiries by the proposal due date.

The specifications and drawings are posted as attachments on NECO www.neco.navy.mil under 'Other Documents.'

NOTE THE FOLLOWING:

- The Government intends to evaluate proposals and issue a task order without discussions. Therefore, each initial offer should contain the offeror's best terms from a price standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary.
- Any changes to the Scope of work, Technical Specifications, or Drawings will be issued on a Standard Form (SF) 30.
- This request does not constitute a notice to proceed nor shall it be considered as a commitment on the part of the Government.
- Any cost incurred prior to issuance of a task order cannot be reimbursed. Offerors will not be reimbursed for any effort or proposal costs resulting from this solicitation.
- Offerors are advised that funding may not become available. If funds are not available, no award will be made as a result of this solicitation.
- If funding becomes available, the successful offeror will be issued a task order under their contract, as set forth in DFARS 252.216-7006, Ordering (May 2011).

Airfield Paving Repairs
 MCAS Cherry Point, North Carolina

REQUEST FOR PROPOSAL
 Project No. 6364047

NC160104 MOD 1 LAST MODIFICATION NC104

General Decision Number: NC160104 01/22/2016

Superseded General Decision Number: NC20150104

State: North Carolina

Construction Type: Highway

Counties: Beaufort, Bertie, Bladen, Camden, Carteret, Chowan, Columbus, Craven, Dare, Duplin, Gates, Granville, Halifax, Harnett, Hertford, Hyde, Jones, Lenoir, Martin, Northampton, Pamlico, Pasquotank, Perquimans, Robeson, Sampson, Scotland, Tyrrell, Vance, Warren, Washington and Wilson Counties in North Carolina.

HIGHWAY CONSTRUCTION PROJECTS (excluding tunnels, building structures in rest area projects & railroad construction; bascule, suspension & spandrel arch bridges designed for commercial navigation, bridges involving marine construction; and other major bridges).

Note: Under Executive Order (EO) 13658, an hourly minimum wage of \$10.15 for calendar year 2016 applies to all contracts subject to the Davis-Bacon Act for which the solicitation was issued on or after January 1, 2015. If this contract is covered by the EO, the contractor must pay all workers in any classification listed on this wage determination at least \$10.15 (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in calendar year 2016. The EO minimum wage rate will be adjusted annually. Additional information on contractor requirements and worker protections under the EO is available at www.dol.gov/whd/govcontracts.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and

non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====

END OF GENERAL DECISION

252.236-7007 Additive or Deductive Items.

As prescribed in 236.570(b)(5), use the following provision:

ADDITIVE OR DEDUCTIVE ITEMS (DEC 1991)

(a) The low offeror and the items to be awarded shall be determined as follows—

(1) Prior to the opening of proposals the Government will determine the amount of funds available for the project.

(2) The low offeror shall be the Offeror that—

(i) Is otherwise eligible for award; and

(ii) Offers the lowest aggregate amount for the base item plus (in the order stated in the list of priorities in the schedule) those additive items that provide the most features within the funds determined available.

(3) The Contracting Officer shall evaluate all proposals on the basis of the same.

(i) If adding another item from the schedule list of priorities would make the award exceed the available funds for all offerors, the Contracting Officer will skip that item and go to the next item from the schedule of priorities; and

(ii) Add that next item if an award may be made that includes that item and is within the available funds.

(b) The Contracting Officer will use the list of priorities in the schedule only to determine the low offeror. After determining the low offeror, an award may be made on any combination of items if—

(1) It is in the best interest of the Government;

(2) Funds are available at the time of award; and

(3) The low offeror's price for the combination to be awarded is less than the price offered by any other responsive, responsible offeror.

(c) *Example.* The amount available is \$100,000. Offeror A's base and four additives (in the order stated in the list of priorities in the Schedule) are \$85,000, \$10,000, \$8,000, \$6,000, and \$4,000. Offeror B's base and four additives are \$80,000, \$16,000, \$9,000, \$7,000, and \$4,000. Offeror A is the low offeror. The aggregate amount of offeror A's proposal for purposes of award would be \$99,000, which includes a base plus the first and fourth additives. The second and third additives were skipped because each of them would cause the aggregate to exceed \$100,000.

PRICE SCHEDULE

BASIS OF PRICE

CLIN 0001:

Price for the entire work completed in accordance with the drawings and specifications, but excluding work described in Contract Line Item (CLIN) 0001AA, 0001AB, 0002, 0003, 0004, 0004AA and 0004AB.

Base CLIN 0001: \$_____

CLIN 0001AA:

Price for providing all work in connection with providing glass beads meeting the requirements of Federal Specification TT-B-1325C, Type I, Low Index of Refraction, Gradation A (course drop-on), except for work in connection with Sheet CT123, complete in accordance with the drawings and specifications.

Base CLIN 0001AA: \$_____

CLIN 0001AB:

Price for providing all work in connection with providing glass beads meeting the requirements of Federal Specification TT-B-1325C, Type III, High Index of Refraction, except for work in connection with Sheet CT123.

Base CLIN 0001AB: \$_____

CLIN 0002:

Price for stockpiling, sampling, testing, and disposal of aggregate base course or soil material contaminated by petroleum in the area identified in the contract drawings in accordance with drawings and specifications and in accordance with the following schedule:

Unit: Tons
Unit Price (\$/Tons): \$ _____
Number of Units: 400 Tons

Extension = Base CLIN 0001 \$ _____

CLIN 0003:

Price for storing, sampling, testing, and disposal of groundwater contaminated by petroleum as industrial waste complete in accordance with drawings and specifications and in accordance with the following schedule:

Unit: Gallons
Unit Price (\$/Gallons): \$ _____
Number of Units: 10,000 Gallons

Extension = Base CLIN 0001 \$ _____

Option CLIN 0004:

Price for the providing work in connection with Sheets CD112, CD113, CS112 and CS113 completed in accordance with the drawings and specifications.

Total Option CLIN 0004: \$ _____

Option CLIN 0004AA:

Price for providing all work in connection with Sheet CT123, and providing Federal Specification TT-B-1325C, Type I, Low Index of Refraction, Gradation A (course drop-on), glass beads for pavement marking, complete in accordance with the drawings and specifications.

Total Option CLIN 0004AA: \$ _____

Option CLIN 0004AB:

Price for providing all work in connection with Sheet CT123, and providing Federal Specification TT-B-1325C, Type III glass beads for pavement marking, complete in accordance with the drawings and specifications.

Total Option CLIN 0004AB: \$ _____
